

Corporate Groups

Weekly Classes for Corporate Groups

Corporate group tuition balances the needs of individual learners with group and corporate requirements to ensure that all learners improve their own skills within a group based accelerated learning environment.

The programs are designed for specific purposes and then tailored to the workplace specific technical language as requested by our clients. Fixed price tuition can be designed to suit the preferred agenda, duration and course length of our clients. For consistent improvement we recommend that the students meet with their teacher at least once per week over a 12 week semester.

Needs Assessments

We are able to conduct individual learner or company needs assessments are conducted to ensure courses are effective in achieving your required learning outcomes. The findings of needs assessments are then used in tailored program development and combined with components of the Performance English Business curriculum to deliver identified learning outcomes.

Tailoring may use the following concepts for program development:

- Industry technical language and workplace specific language
- Personal or small group language challenges in reading, writing, speaking, listening and grammar

Corporate Group Classes

Performance English builds programs to meet industry needs in technical language development. These programs can be developed for all industries and disciplines. Performance English has existing expertise in the following industries:

- Accounting & Finance
- Engineering
- Healthcare
- Information Technology

Intensive Workshops for Specific Purposes

Intensive Workshops for Corporate Groups

Corporate groups with specific workplace needs may also select from a range of one and two day intensive courses. Each course addresses either industry specific language needs or builds language skills for a specific work related purpose.

English for Accounting & Finance

This one day intensive course concentrates on language specific to accounting & finance roles in the Australian workplace.

English for Healthcare

This one day intensive course concentrates on language specific to general healthcare and nursing roles in the Australian workplace

English for IT Technicians

This one day intensive course concentrates on language specific to the Australian IT industry.

English for Engineering

This one day intensive course concentrates on language specific to engineering roles in the Australian workplace

Telephone Skills for Overseas Born Professionals

This one day course concentrates on speaking and listening skills within workplace contexts over the telephone.

Business Writing Skills for Overseas Born Professionals

This one or two day course concentrates on writing skills for letters, reports, proposals and other documents within the context of an Australian workplace.

Business Presentation Skills for Overseas Born Professionals

This one day course focuses on fluency of speaking for business presentations.

English Language Skills for Client Service

This one day course focuses mainly on speaking and listening skills for client service.

General & Remedial Pronunciation for Overseas Born Professionals

This one day course re-introduces basic English pronunciation and drills to help learners correct their own pronunciation difficulties. Remedial pronunciation works in smaller groups on the correction of entrenched pronunciation difficulties.
